

Vacancy: Software Developer

TAKE YOUR CAREER TO

THE NEXT LEVEL

From our locations in Srinagar city of Jammu and Kashmir and Veenendaal, the Netherlands (EUROPE) we work on our software solutions. A dedicated team of specialists. The atmosphere is open and informal.

A nice team where you can be yourself. Can learn and excel. What binds us? Our mutual hobby: software technology and development.

Do you want to join our team?

Hope to see you soon!

Yarikul team

Software Developer

We're seeking a talented Software Developer to join our small team of developers, testers, and managers, all working together towards a common goal of improving our ERP software. In this role, you'll be responsible for designing and implementing testable, scalable code that is efficient and reliable using the latest version of PHP and Symfony. Previous experience with ERP systems or SaaS is a plus, but not required.

What you get

- A competitive salary with periodic increments.
- A friendly and relaxed work environment where you can thrive and grow.
- Opportunity to participate in online or offline tech conferences, take paid courses, and learn new skills (all company-sponsored).
- Hybrid work model (at least 2 days per week in office).
- Opportunity to travel abroad and collaborate with international clients.

What we need

- At least 2 years of proven work experience in software development, especially web development.
- Experience with test-driven development (TDD) and maintaining large-scale software systems.
- Experience with one or more statically typed programming languages.
- Familiarity with modern development practices like continuous integration and delivery (CI/CD).
- Hands-on experience with SQL, including Window functions, CTEs, and other related technologies.
- Willingness to learn and work primarily in PHP and Symfony.
- Empathy towards other team members.
- Enthusiasm to explore and learn new technologies on your own and share your knowledge.

If you're a skilled Software Developer with a passion for innovation and a desire to work in a dynamic environment, apply now and take the next step in your career.
